- Remote Control - typenr: RT770110X

* according to version

Product highlights

• Automatic Channel Setup

The Combi tuner scans through television frequencies, automatically storing every active broadcasting channel into memory. Automatic channel preset can be repeated whenever desired, should new channels become available. Channels can be manually added as well.

• Teletext/Videotext

The built in Text-decoder gives you access to many different topics like: the latest news, the weather forecast or the TV-guide. It's a convenient source of up to date information.

• Unified Multifunction Infrared Remote

Controls all operating features and functions of both TV and VCR sections of this Combi from the convenience of your armchair. This includes all special features, random channel access, and channel scan up/down.

• Show View/VideoPlus Programming

Simplifies VCR programming by allowing you to simply enter ShowView/VideoPlus Code numbers found in many published television listings

• One-Touch Record

With the touch of a single button you can start a recording. Each touch of the RECORD button adds 30 minutes of additional recording time.

• Front Audio/Video Input Connector

Connect your Combi to the direct video output of a camcorder or video game to enjoy video entertainment.

• SCART Connector

The SCART connector also allows a SAT tuner or a Pay TV decoder to be connected to your Combi

• Headphone Socket

Plug in a personal headphone and enjoy your favorite movie, music video, video game without disturbing other family members in the room. The jack is compatible with all standard 3.5 mm phone plugs.

• Sleep Timer

Automatically turns the Combi off at a preset time of up to 180 minutes from the time the feature is activated. Sleep timer settings are programmed in 15-minute increments.

• Auto Head Cleaner

The video head is automatically cleaned each time a tape is inserted or removed, to maintain optimum picture performance during both recording and playback

• Full Auto Feature Package

Incorporated into every PHILIPS Combi, this complete package includes: automatic control for Power On when a tape is inserted, Automatic Studio Tracking, assuring proper alignment of video and audio heads for perfect recordings and viewing every time; Auto Play, placing prerecorded tapes in the Play mode as soon as they're inserted in the unit; Auto Rewind, to rewind the cassette as soon as the tape reaches the end; Auto Eject at the end of the tape after record so tapes are not inadvertently left in the Combi
